6. Enter the date the odometer was read
7. Check the odometer box (check only one: Actual, In Excess, or Not Actual. If a box is not checked, the title transfer will not be processed and additional paperwork will be required.)

9. Printed name of seller(s) If owners names are connected by "and," all owners must print their name.

11. Printed name of purchaser(s)

LIENHOLDER(S):

12. If there is a lienholder listed on the paper title, they will need to sign the lien release listed on the title (12a) or provide an original lien satisfaction. If the title is being transferred without the lien being released, a signed statement from the lienholder must be provided on their letterhead as to why (example: transfer of equity, name change, etc.).

Tips for Successful Title Transfer:

- The original title, manufacturer's certificate of origin, or other legal proof of ownership must be completed in full prior to applying for transfer.
- All applicants must be present with valid identification or provide a valid power of attorney.
- Information on the title cannot be missing, altered, or written over. When mistakes are made, a signed affidavit explaining the error(s) is required.
- To obtain a license plate, proof of current Florida insurance policy must be provided (excluding motorcycles and trailers).

Note - If the title is currently being held electronically, the seller is not required to produce a paper title if the buyer and seller visit a tax collector's office or private tag agency together with valid photo ID to transfer ownership. If the buyer and seller are not able to visit an office at the same time, the seller must request a paper title be printed and complete the steps outlined in this document.
